Did You Know ... Kenya is building a railway to connect four countries in East Africa.

50 FACTS ON KENYA

To learn more about Kenya visit
www.kenya.info.

- In October 2009, Kenya and Uganda agreed to build and manage a railway between Mombasa, Kenya and Kampala, Uganda.
- The railway will eventually link Uganda and Kenya to Rwanda and Southern Sudan, creating a much needed transportation network in the region.
- Kenya currently has 1,654 miles of railroad connecting Nairobi to Kenya's major ports and Lake Victoria.
